

ET-PP global communication and data model and data archiving

Discussion driven by WP8 Computing and data models

Main contributors:

- **WP1** Coordination and communication
- **WP2** Legal framework for operations
- **WP6** Liaison with ET Scientific Boards
- **WP9** Sustainable development strategy

Chair: Nadia Tonello (BSC, WP8)

1. ET-PP data – needs and priorities

All: Which data does the project need/produce?

WP1: Who will be in charge to provide what?

2. ET-PP contribution to the ET Collaboration

WP2: Definition of Policies of data access and computing access. Who/When/How?

WP6: Definition the on-site needs of computing and storage. Who/When/How?

WP9: Requirements and evaluation of the computing and storage infrastructure impact.

ET-PP data needs and priorities

INPUT for ET-PP activities	Who	How	When
Existing ET data/documents?
