Executive News

- Collaborative Agreement v2 (final one) now ready
 - **Distribution for collecting signatures this week**
- A spending forecast of the contributive (own) resources asked 10 days ago **with tentative deadline on 9th December**
- ET-PP web page now includes an internal area
 - For the moment meeting coordinates
 - We will add links to ET-PP documents
- We have generated a (pedestrian) google drive skeleton with the idea to provide a framework and tools for dynamic (parallel) editing of material
 - This should be a temporary solution for storage
 - You received a number of mails about it
 - *Some partners are not allowed to use google tools ?*
- In parallel, we are actively looking for the proper tool scalable and with the required functionalities according to the realities of a 2B€ ET
- (see next slide)

Project Directorate and WP2
are already actively using it

- A Folder for each WP only accessible by the WP coordinators and ET-PP coordinator
- An area (PUBLIC-TO-ETPP) for all WP coordinators to share material
- Use it and provide feedback.

Welcome to the INFRA_DEV web

ET-PP Organization

At the start of the ET-PP in July 2022 we defined an area in the ET wiki for INFRA-DEV (thanks to EGO)

https://wiki.et-gw.eu/INFRA_DEV/WebHome

Not used by essentially any WP to store info yet

We also defined an area for INFRA-DEV documents in ET TDS system

<https://apps.et-gw.eu/tds/>

- > under ET collaboration privileges
- > Maybe not powerful enough
- > Probably not suitable for ET Project

We need to present an ET-PP DMP by February 2023 so it is urgent to clarify this issue.

Executive News (cont.)

- With the help of R. Saban and M. Morandin we are exploring which tool to be implemented for storage, versioning, commenting and sign-off, of the ET-PP documents (the deliverables) and ET Project
- —> EDMS (CERN solution) ?
- Friday last week we had a dedicated (1.5h) tutorial by CERN on EDMS to know better its functionalities.
- Next Steps
 - Discuss with ET Directorate if this solution should/could be adopted for the ET Project
 - Alternatively evaluate other options
- If adopted CERN would give us support and a tutorial on the system
- Next ET-PP meeting on December 19th @ 12:00 PM is not possible.
—> I propose Dec 21st @ 12:00 PM
