WP7 Parallel  
Session

ET-PP  
Annual Meeting

17 June '24

Grant agreement: N° 101079696

# Outcome of the WP7 parallel session

- **presence at the ET-PP booth at BSBF**
  - waiting from feedback from WP6
- report on options for implementing a **balanced return policy in ET**
  - we will deliver in July the milestone document reporting the result of the **survey across the European BSOs**
  - we will try first to **clarify the main question** that was raised yesterday, i.e. **to what extent legal status is coupled to instruments for achieving balanced return** [by September]
  - at that point we will **discuss with WP2/3 how to proceed**
- experience and proposal for **industry engagement** in ET-PP
  - proposal to start initiatives to **strengthen industry involvement in the R&D phase**, in particular **consultancy**
  - further **feedback is very welcome**
  - we will discuss internally and then **present our plans for the last two year of ET-PP in a future ET coordinator meetings,**

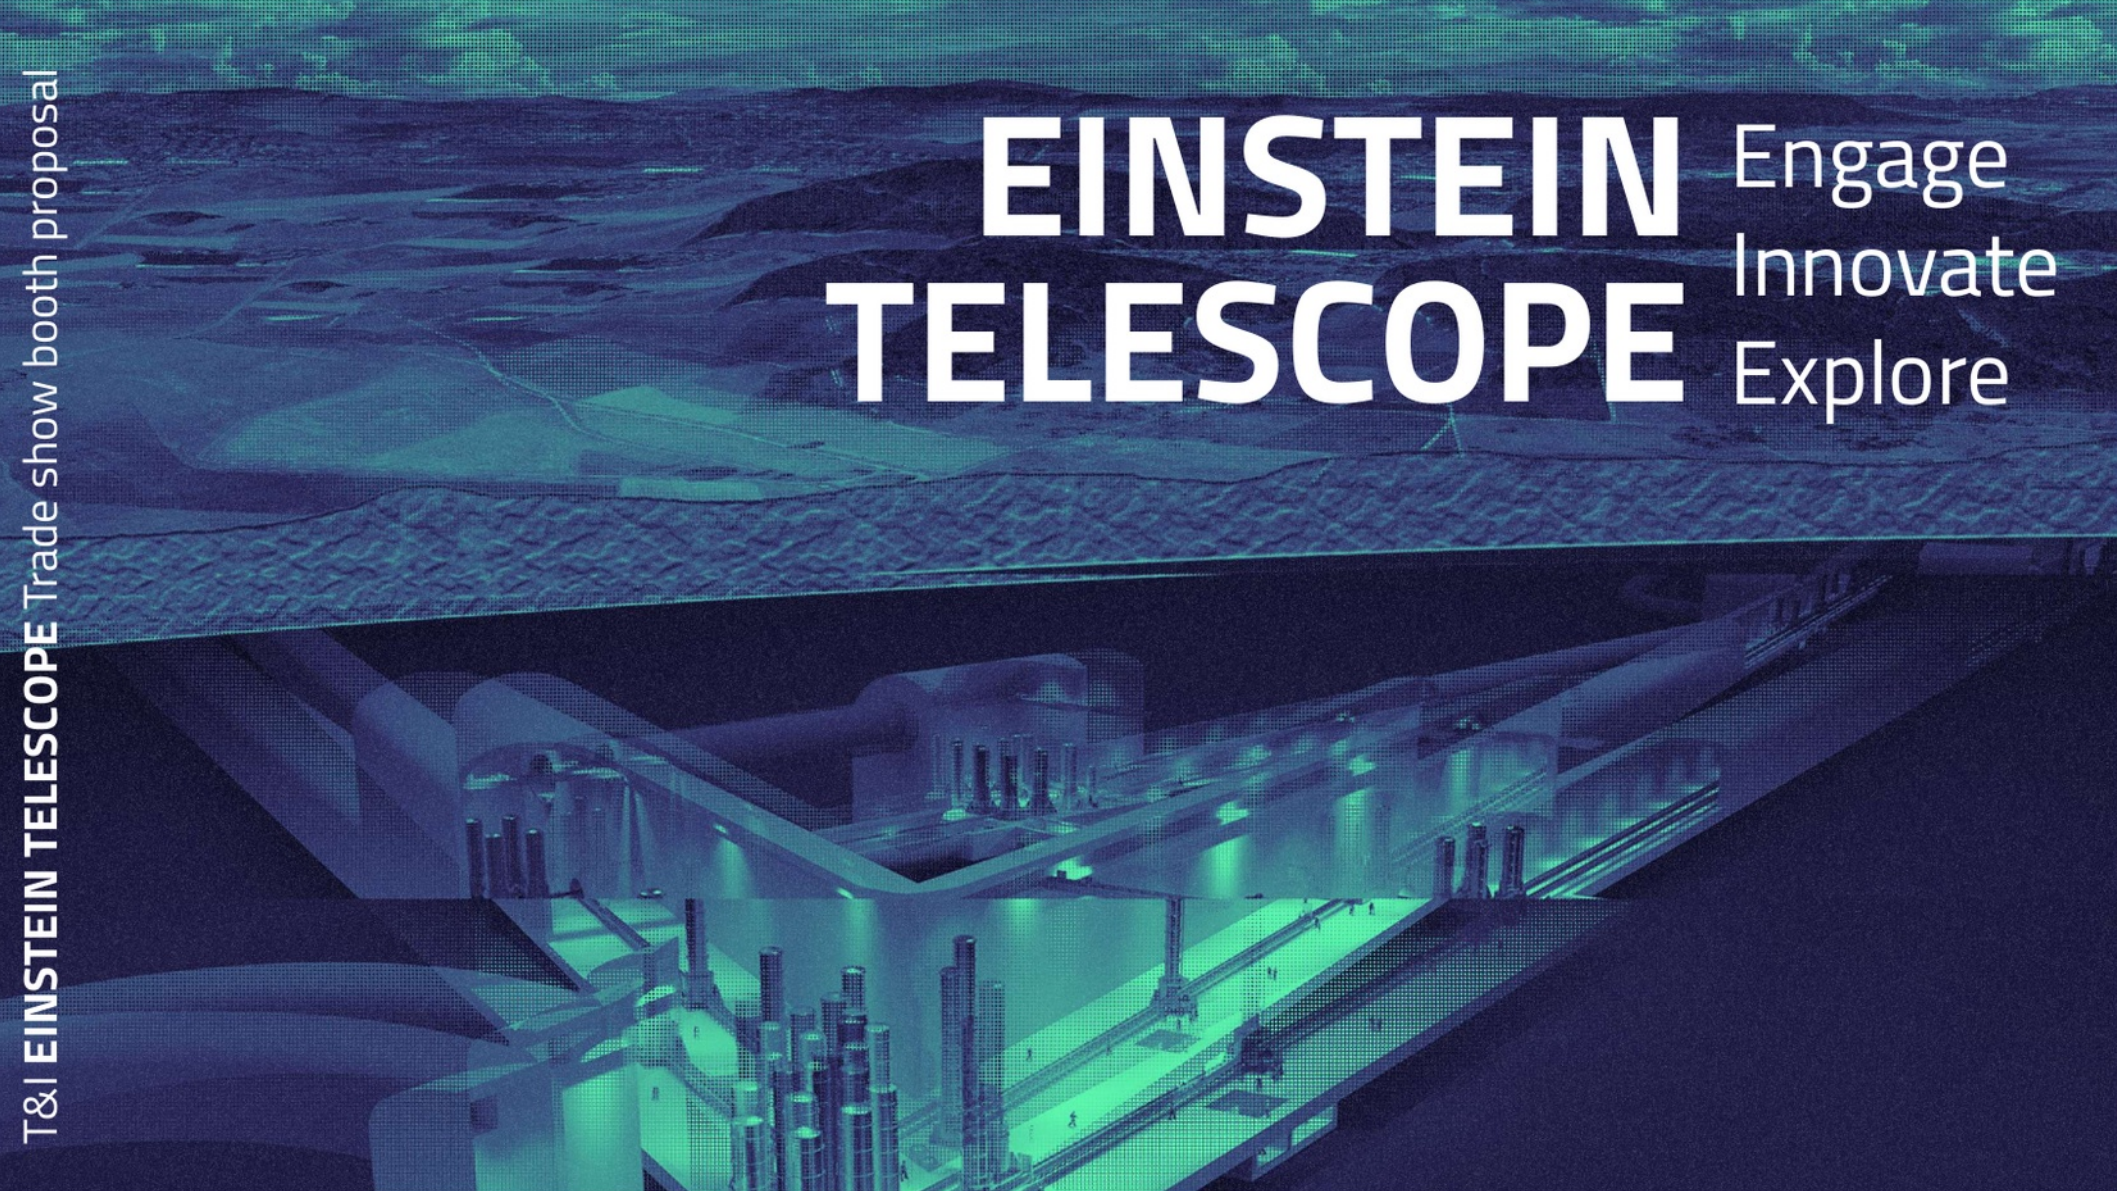

# Outcome of the WP7 parallel session

- proposed approach to **provide TT services** for R&D activities being carried out during the execution of the ET-PP project
  - positive feedback about possible initiatives **to create awareness about TT in the ET community** and to get in contract with **TT offices at national/institutional level**
- TT policy and proposal for implementation of **TT services in the future ETO**, including required resources
  - no time to discuss,
