ET-PP WP7

# *Parallel session summary*

*Rob van der Meer*

*06 May 2026*

Grant agreement: N° 101079696

## Summary WP7

- BSBF2026 ET booth organization led by ETO
  - in collaboration with WP7
  - No topical booths by the ET host countries or sites.
- Future/follow-up of WP7 in after ET-PP.
  - What heritage do we bring and what recommendations for ETO?
  - Where do we write down our recommendations?
- public procurement of innovation (PPI) to big science by INPROCAP representatives.
- 12:45 [Ilaria Giammarioli]
  - D7.4 – Report on TT and Intellectual property management in ET
- 13:00 [Rob van der Meer]
  - D7.2 – Report on industry engagement plan execution

**Big Science  
Business  
Forum  
2026**

27 - 30 October 2026  
MECC, Maastricht  
The Netherlands

LinkedIn – BSBF2026

**INPROCAP**

Technology Transfer [TT]

also known as

Knowledge & Technology Transfer [KTT]

Deliverable report under review.

How do we retain the knowledge within the ET community, as this is not anchored in ETO?

## TT organization Starting points

### Legal constraint:

- Each partner retains rights to IP generated within the project based on its own contribution
- A central TT office (ET-KTO) cannot autonomously decide on the exploitation of partners' IPRs; a consultative role is expected

### Objectives:

- Coordinate partners in TT initiatives
- Act as a contact point for researchers and coordinate TTOs

## TT organization Resources

- The expertise of the ET-KTO staff should be mainly related to technology valorisation promotion, entrepreneurship training and innovation coordination activities (novel tech scouting and communication, innovation by procurement support, annual reporting)
- The key professionals needed in the C&O Phases of the ET project are an **Innovation Project Manager** and an **Innovation Coordinator**
- An additional **Entrepreneurship Manager** should be necessary if a business incubation program wants to be managed, beyond the entrepreneurship training for researchers.

## TT organization ET-KTO Activities

- Technology scouting through the design, coordination, and execution of Proof of Concept programmes
- Entrepreneurship training and innovation programmes outlined in the ET Innovation Plan
- Demonstration of technology value during the operation phase to attract collaborators and investors
- Collection of structured feedback from users and stakeholders to refine technologies for transfer

# Status WP7 Deliverables

Deliverables													
Work Package No	Deliverable Related No	Deliverable No	Deliverable Name	Description	Lead Beneficiary	Type	Diss. Level	Due Date	amended date	New Due Date (if delay)	Delivery Date	Approval Date	Status

## D7.2 industry engagement [1]

Three workshops:

- **Sustainability of ET infrastructure**
  - Rome, 16-17 February 2026
- **Industry computing Workshop**
  - NIKHEF, 14-15 April 2026
- **Vacuum and cryogenic Workshop**
  - CERN, 21-22 April 2026

## D7.2 industry engagement [2]

Surveys on the three workshops:

Important results:

- Successful meetings
- Too much time overflow in meetings
- Not enough b2b options
- Good idea to repeat the workshop(s)
- Companies also want to host these follow-up meetings
- Try to give better introduction
- Try to connect better between experts (scientists) and companies
- Try to include/connect SMEs between the larger industries.

## D7.2 industry engagement [3]

Deliverable report D7.2

Factual about meetings and engagement efforts

Also recommendations on follow-up in ET-community/ETO
